POST CATEGORIZATION

Is this an abuse/misuse-related post or other post of interest for an in-scope product?

What is the category of this post?

Exclude post due to spam or advertisement?

Post Content
 Were you taking **adderall**? Using more than 100mg over this short amount of time is a LOT. **wellbutrin** can be a substitute for **amphetamine** and has some stimulant effect. Use with care.

Poster Information	Product: wellbutrin [In Scope]
